

Bees Need Protein

and carbohydrate for good build-up
and maximum honey crops

Feed 4 to 6 lbs of patties per hive
each spring to ensure colony health,
fast build-up and maximum production.

Visit us at www.globalpatties.com
for more information and feeding ideas

Be on schedule this year

- * Save time, money, hassle and mess, and get a better crop!
- * Global is fast, accurate and efficient -- the cheapest way to feed
- * All ingredients are factory-fresh and delivered promptly. Freshness is essential for maximum nutrition.
- * Proven in Western Canadian field tests to equal or beat other bee feeds for build-up and results.
- * Pollen in our formula is irradiated by Iotron to prevent bee disease.

Global Patties

are Fast, Convenient, and
Ready-Made!
